

the intimate

what you need to know

weddings are not one-size-fits-all. they aren't even one-size-fits-most. every wedding is as unique and special as the love it celebrates. that's why we start with the minimum number of hours we believe it takes to capture a love story and let you build from there. we'll work with you to add on hours, shooters, a photobooth, spoken guestbook, extended cut videos, and more.

the intimate

the details // the elopement and intimate wedding package includes four hours of photo and video coverage. you can expect one photographer and one videographer to cover your wedding with up to 15 guests. don't feel like you're planning this thing alone! we'll provide assistance with a custom timeline to make sure we capture all of the best moments. that way we can be sure to capture every detail.

what you get // you will receive both color and black and white images that are carefully chosen to tell the unique story of your special day. we deliver a minimum of 300 photos in high resolution via an online gallery within 10 weeks. you will also receive a three-four-minute highlight video in the same timeframe. we also deliver a photo and video teaser in the first week! this typically includes 10-15 photos and a 30-60 second teaser – perfect for your socials!

know this: we don't hold anything back from our final delivery and often times our couples receive more than the minimum. just remember, the more you let us into your world, the better we can tell your story.

photo + video packages begin at \$3400

add-ons

hours // additional hours available. primary photo + video must be booked together.

shooters // additional shooters are available for 8 hours per additional shooter.

extended cut video // full length video available of select events throughout day. for example, ceremony, speeches, parent dances, cultural traditions.

extended drone coverage // independent shooter dedicated to capturing aerial shots of the day.

spoken guestbook // reception guestbook station for attendees to share their well-wishes, reflect on stories from your past, and give their best advice for your future. we'll edit a final cut of each audio signature over footage of your day.
