

# the standard

## what you need to know

*weddings are not one-size-fits-all. they aren't even one-size-fits-most. every wedding is as unique and special as the love it celebrates. that's why we start with the minimum number of hours we believe it takes to capture a love story and let you build from there. we'll work with you to add on hours, shooters, a photobooth, spoken guestbook, extended cut videos, and more.*

### *the standard*

*the details* // the standard includes a base of eight hours of coverage with one photographer and one videographer. we'll walk you through how we will approach the day based on the coverage booked. the standard typically always includes getting ready photos, ceremony, and some reception. we recommend including first look photos but leave that decision up to you! you are welcome to add on hours, shooters, and anything else to make your dreams a reality. if you ask us, 10 hours is the most ideal for really telling the story of your day.

*what you get* // you receive both color and black and white images that are carefully chosen to tell the unique story of your wedding. a minimum of 700 photos will be delivered in high resolution via an online gallery within ten weeks. you will also receive a four-six-minute highlight video in the same timeframe. we deliver a sneak peek in the first seven days. this includes 10-15 photos and a 30-45 second teaser – perfect for your socials!

know this: we don't hold anything back from our final delivery and often times our couples receive more than the minimum. just remember, the more you let us into your world, the better we can tell your story.

photo + video packages begin at \$7800

### *add-ons*

*hours* // additional hours available. primary photo + video must be booked together.

*shooters* // additional shooters are available for 8 hours per additional shooter.

*extended cut video* // full length video available of select events throughout day. for example, ceremony, speeches, parent dances, cultural traditions.

*extended drone coverage* // independent shooter dedicated to capturing aerial shots of the day.

*spoken guestbook* // reception guestbook station for attendees to share their well-wishes, reflect on stories from your past, and give their best advice for your future. we'll edit a final cut of each audio signature over footage of your day.

*photobooth* // our photobooth is free-standing, mirrored, and comes with green screen options. this means you can use in open space, see your reflection as you pose, and include large groups. unlimited digital and physical prints available.
